

Eurasian Journal of Forest Research (EJFR)

EJFR is an international magazine of Forest Science organized by Hokkaido University Forests, Japan, V.N Sukachev Institute of Forest, Russia and Northeast Forestry University, China. Abstracts of the Research Bulletin of the Hokkaido University Forests (in Japanese with English summary) are also included in EJFR.

Advisory Committee

Adams, M. (Univ. of Sydney), Baatarbileg, N. (National Univ. of Mongolia), Barnes, V. B. (Univ. Michigan), Chapin, III F. S. (Univ. of Alaska, FB), Efremov, D. F. (Far East Forestry Res. Inst.), Feng, Fong-Long (National Chung Hsing Univ.), Fukuda, M. (Fukuyama City Univ.), Goldammer, J. G. (Freigurg Univ.), Gower, T. S. (Univ. of Wisconsin), Grubb, P. J. (Univ. of Cambridge), Gwiazdowicz, D. J. (Poznan Univ.), Häslér, R. (WSL), Helmisaari, H. S. (Univ. of Helsinki), Kellomäki, S. (Univ. of Joensuu), Kohyama, T. (Hokkaido Univ.), Lechowicz, M. J. (McGill Univ.), Lee, Don Koo (Seoul National Univ.), Linder, S. (Swedish Univ. of Agr. Sci.), Luo, J. (Beijing For. Univ.), Matyssek, R. (TU Munich), Onuchin, A. A. (V.N. Sukachev Inst. of Forest, SB RAS), Pretzsch, H. (TU Munich), Prokopchuk, V. K. (FESAU, Russia), Reich, P. B. (Univ. of Minnesota), Shugart, H. H. (Univ. of Virginia), Shvidenko, A. Z. (IIASA Austria), Smith, W. K. (Wake Forest Univ.), Sprugel, D. G. (Univ. of Washington), Suzuki, K. (FFPRI), Tenhunen, J. D. (Univ. of Bayreuth), Teskey, R. O. (Univ. of Georgia), Timmer, V. R. (Univ. of Toronto), Vaganov, E. A. (Siberian Federal Univ.), Yanxi, Q. (Beijing For. Univ.), Zhao, Z. (Northwest Agri. & For. Univ.), Zu, Y. (Northeast Forestry Univ.)

Chief Editor: HIURA Tsutomu

(Director of the Hokkaido University Forests)

Managing Editors

Hatano, R. (Soil Science), Hiura, T. (Forest Ecology), Kakizawa, H. (Forest Policy), Nakamura, F. (Ecosystem Management), Saitoh, T. (Animal Ecology), Sano, Y. (Wood Anatomy), Sasaki, T. (Timber Engineering), Shibata, H. (Biogeochemistry), Shibuya, M. (Silviculture), Tamai, Y. (Physiology & Ecology of Mushrooms), Uraki, Y. (Wood Chemistry), Yamada, T. (Earth Surface Processes & Land Management), Yoshida, T. (Silviculture)

Responsible Editors

Funada, R. (Wood Biology), Koike, T. (Forest Ecophysiology & Tree Breeding), Koizumi, A. (Wood Technology), Sasa, K. (Erosion Control & Forest Hydrology), Shi, F. (Forest

Vegetation), Terazawa, M. (Forest Chemistry), Zyryanova, O. A. (Vegetation Science)

Linguistic Editors: Campbell, D. J., Kayano, Y. (Obihiro), Garrett, A. & SCITEXT (Cambridge)

Review Board

Agetsuma, N. (Hirai), Aoi, T. (Morioka), Baranchikov, Y. N. (Krasnoyarsk), Bruckman, V. (Vienna), Cha, J.Y. (Sapporo), Chen, X. (Harbin), Choi, D.S. (Fuchu), Hayashida, M. (Tsuruoka), Hirano, T. (Sapporo), Ishii, H. (Kobe), Izuta, T. (Fuchu), Jin, Hyun-O. (Suwan), Kadomatsu, M. (Sapporo), Kajimoto, T. (Tsukuba), Kharuk, V. I. (Krasnoyarsk), Kisanuki, H. (Tsu), Kishida, O. (Tomakomai), Kita, K. (Kohshunai), Kitao, M. (Tsukuba), Koizumi, H. (Tokyo), Koyama, A. (Fort Collins), Kurbatova, J. (Moscow), Kuromaru, M. (Kohshunai), Kushida, K. (Fujisawa), Lei, T. T. (Ohtsu), Makoto, K. (Toikanbetsu), Marod, D. (Bangkok), Masyagina, O. (Krasnoyarsk), Matsuura, Y. (Tsukuba), Mori, S. (Tsuruoka), Murakami, M. (Chiba), Muratova, E. N. (Krasnoyarsk), Nakaji, T. (Tomakomai), Nakamura, K. (Morioka), Nakamura, M. (Nayoro), Niinemets, Ü. (Tartu), Okano, T. (Kamiiina), Olchev, A. (Moscow), Osawa, A. (Kyoto), Qu, L. (Beijing), Quoreshi, A. M. (Kuwait City), Rousi, M. (Helsinki), Sano, J. (Tottori), Schaller, M. (Ruhpolding), Shashkin, A. V. (Krasnoyarsk), Shibuya, M. (Sapporo), Son, Y.H. (Seoul), Takagi, K. (Toikanbetsu), Takata, K. (Akita), Tamai, Y. (Sapporo), Tchebakova, N. M. (Krasnoyarsk), Tsuchiya, T. (Fuchu), Uemura, S. (Nayoro), Utsumi, S. (Moshiri), Wang, J. (Beijing), Wang, W. (Harbin), Yamada, T. (Tsu), Yamada, Y. (Matuyama), Yan, X. (Harbin), Yi, M.J. (Kangwong)

Aims and Scope

Aims: The research focus is to understand of forest ecosystem, composition, structure and function of northern and boreal forests of the Eurasian region and its vicinity. Therefore, we seek to publish new knowledge at both ecosystem and organisms levels in these regions. This basic information will serve to advance forest science, silviculture and forest ecosystem management, and the conservation and sustainability of organisms and ecosystems. Ecosystem studies are well established and their rapid development encourages new biological and ecological fields with roots in traditional biological and earth science areas. The EJFR seeks to communicate research to solve local and global forest problems in the northern and boreal forests of the Eurasian region and its vicinity.

The scope: The journal emphasis the area of Forest Ecology and Biology, Silviculture, Management of Forest Ecosystems and Wood Utilization. Research in Forest Policy and social aspects of forests are also welcome. The scope of EJFR encompasses ecosystem-level research from brood of fine scales and across temporal scale from seconds to millennia. EJFR welcomes articles of high scientific quality on the above topics, new methods, examples of long term Ecological research, review papers and opinion on timely topics.

The Eurasian Forest Research Cooperation Committee (EFRC)

EFRC is a committee financed by the Hokkaido University Forests with the scientific cooperation of V.N.Sukachov Forest Research Institute of the Russian Academy of Science (Siberian Branch) and Northeast Forestry University (a Sister School of Hokkaido University). The purpose of EFRC is to initiate, support and promote high quality forest research focused on the eastern Eurasian region including southeast Asia. EFRC is also working to strengthen the role of northern and boreal forest research in joint Asian and international projects.

Contributors will be required to have a membership with the EFRC, except for those authors who are invited by the chief editor to contribute papers.
